Professional Summary

Highly analytical and detail-oriented **Computer Science & Engineering graduate** with a strong foundation in Python, SQL, REST APIs, and hands-on experience in **Generative AI, Large Language Models (LLMs), and Prompt Engineering**. Experienced in developing AI-driven solutions, leveraging AI-assisted workflows, performing feature validation, and contributing to technical documentation in collaborative engineering environments. Eager to build innovative, data-driven software solutions while continuously learning emerging AI technologies.

Technical Skills

- **Languages & Core:** Python, SQL, REST APIs, Data Structures & Algorithms
- **AI / GenAI / LLMs:** Generative AI, Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI-assisted development workflows, OpenAI API, Gemini API
- **ML Frameworks & Libraries:** PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Librosa
- **Databases & Tools:** MySQL, Git, GitHub, VS Code, ProcDump, Open Cybersecurity Schema Framework (OCSF)
- **Engineering Competencies:** Technical Documentation, Feature Testing, Cross-Functional Collaboration, Public Speaking & Hosting

Professional Experience

Cyber Security & AI Intern

Aug 2025 – Present

IIT Jammu

Jammu, India

- Developed AI-assisted cybersecurity solutions using Large Language Models (LLMs) to parse, interpret, and structure heterogeneous security logs.
- Engineered Python-based data preprocessing pipelines converting heterogeneous logs into standardized Open Cybersecurity Schema Framework (OCSF) structures, improving data consistency.
- Researched and implemented advanced LLM orchestration patterns (orchestrator-worker, evaluator-optimizer) to streamline automated security analysis workflows.
- Extracted and analyzed volatile Windows process memory dumps using digital forensics tools (ProcDump, Strings) to support threat analysis.
- Performed feature testing for an AI-based PII detection system by validating the identification of sensitive information across diverse input scenarios and documenting observed issues.

Generative AI & Cybersecurity Intern

Mar 2026 – May 2026

Integrитеchnologies

Virtual

- Developed foundational learning materials and technical documentation for an Employee AI Safety Awareness SaaS training product.
- Authored practical enterprise scenarios and safe prompt-writing guidelines focusing on Generative AI risks, prompt safety, data privacy, and safe handling of sensitive information.

AI & Machine Learning Projects

Deepfake Voice Generation & Security Simulation

May 2025 – Jul 2025

Academic Project

- Built a voice-cloning application leveraging the XTTS v2 model, Coqui AI, and PyTorch to generate synthetic speech from reference audio inputs.
- Implemented audio preprocessing and feature extraction techniques to ensure high fidelity in synthesized outputs.
- Studied real-world vishing and voice fraud scenarios, incorporating scenario-specific speech patterns, urgency, pitch, modulation, and intonation into the training dataset to generate realistic context-aware synthetic speech for security simulation.

Text-Independent Speaker Identification System

Dec 2024 – Apr 2025

Academic Project

- Designed and developed a text-independent speaker identification system using Python, Librosa, and Gaussian Mixture Models (GMMs) to accurately recognize speakers regardless of spoken content.
- Extracted Mel-Frequency Cepstral Coefficients (MFCCs), delta, and double-delta spectral features for feature representation.
- Trained and validated Gaussian Mixture Models (GMMs), achieving a **97% validation accuracy** across multiple registered speakers.

Education

B.Tech in Computer Science and Engineering

2022 – 2026

Rajiv Gandhi University of Knowledge Technologies (RGUKT), Andhra Pradesh **CGPA: 9.04 / 10.0**

Pre-University Course (MMPC)

2020 – 2022

Rajiv Gandhi University of Knowledge Technologies (RGUKT), Andhra Pradesh **CGPA: 9.75 / 10.0**

Certifications & Achievements

- **NPTEL Certification:** Programming & Data Structures using Python
- **Google Cloud Workshop:** Machine Learning APIs on Google Cloud
- **IBM / edX:** Developing Interpersonal Skills for Professional Success

Leadership & Extracurricular Activities

- **Virtual Educational Webinar Host & Moderator:** Hosted and moderated a virtual webinar on educational content delivery led by university professors, coordinating attendee Q&A, speaker transitions, and real-time interaction.
- **Annual Technical Fest Event Head:** Scheduling, cross-team communication, and event execution for university-wide technical competitions.
- **Executive Member – Startup & Entrepreneurship Club:** Contributed to organizing ideation workshops and entrepreneurship-related activities
